# Late Sh. Yadupati Singhania

(29.09.1953 - 13.08.2020) Founder Chairperson

As India moves forward, the pace of change accelerates, and conflicts between technology and society, humankind and the environment are becoming increasingly evident. At the same time, the age of nations is coming to an end, global competition has inspired a growing awareness of the need for a collective human society. In this era of rapid change, Sir Padampat Singhania University, an initiative of JK Cement Group, intends to contribute to that international goal by reviving the importance of "Knowledge".

I sincerely believe that knowledge, a critical mind, the capacity to understand and a sense of individual and collective responsibility are the antidotes to ignorance.

Sir Padampat Singhania University will strive to achieve three primary objectives: to deliver a distinctive first quality education, to foster research, creation and discovery and to use the knowledge created on campus to serve society. Our institution will be a conceptual space where ideas are nurtured and dreams take flight at SPSU University.

Yp Singhania

## A Legend Lives Forever...

Nation Builder. Visionary Industrialist.  
Philanthropist. Social engineer. Cricket enthusiast.

My brother Late Shri Yadupati Singhania Ji, the visionary and the founder of Sir Padampat Singhania University (SPSU), since his childhood, had many dreams, and Education was one of them. He was a Civil Engineering graduate from IIT Kanpur in Uttar Pradesh and knew how tough it was to get into all the IITs. At that time, most of the IITians after graduation were selected, and they would leave for overseas for greener pastures as those kinds of opportunities were not available here in India. IITs were and are considered the Ivy League colleges in India.

SPSU was established in the year 2007 as a private state university by the act of the Rajasthan state legislature. It would help the literacy and employment rate in the state to go up. J.K. Cement has promoted this University through its J.K. Cement Nimbahera Foundation. The campus is located on One Hundred and four acres of land and is not very far either from the airport or the city of Udaipur. It is learner-centric education with an aim to generate Knowledge by empowering engineering and management professionals to the world.

**Dr. Nidhipati Singhania**  
Chairperson

It is an honour for me to send this message across to millions of higher education aspirants as Vice-Chancellor of Sir Padampat Singhania University, a place where education is considered the power that strengthens not just individuals but society, nations, and the whole universe.

The world around us is changing at a fast pace and at this very moment, newer innovations, technology transformations, new revelations in various areas and subjects are taking place. Higher education, in the present scenario, has come a long way to include global challenges, environmental sustainability, social responsibility and a culture of universal brotherhood. Research, technology, and innovative practises are now an inseparable aspect of education. To keep up with the dynamic environment, students today need to equip themselves with a robust, innovative approach to be able to create, improve, invent and contribute to make a mark in today's world. The world needs people who are instrumental in bringing about a change instead of those who simply applaud others.

I feel committed to creating a learning environment within the campus where every student aspires to become a change agent, a knowledge seeker, a trailblazer and a pathbreaker. We need young people who are harbingers of progress, values, and reform.

# SPSU Udaipur

The JK Cement Nimbahera Foundation envisioned the establishment of a world-class university in Rajasthan benchmarked to international educational institutions. The Foundation constituted a think tank of eminent people from the industry, science and technology, and academia who prepared the blueprint of the university. The University is committed to academic excellence, entrepreneurial spirit, diversity, vibrancy, and creativity.

SPSU University is on a journey of transformation with the objective to create future ready graduates through Industry-ready specialised programs co-delivered with 15+ leading corporates namely Amazon, Intel FICE, Microsoft, SAS, FL Smidth, TCS iON, Xebia, Beumer Group, etc.

# Udaipur,

## The City of Lakes

### Emerging Destination for Education in India

## Explore

You can engulf yourself in the rare epitome of modernization and architectural wonder at Udaipur. The famous City Lake Palace, located in the middle of Lake Pichola is one of the most beautiful sights and there is so much to explore in this wonderful city.

## Business

Udaipur ranks among as one of the top tourist destinations in the world. Hence, tourism industry stands out to be the number one amongst all business categories. Numerous opportunities are available for young professionals such as plug and play facilities in state-of-the-art environment friendly buildings.

## Well-Connected

Udaipur is well connected via road, rail and airport connects the city to the world. Wide, well-maintained roads and parking spaces all over the city ease local transport.

## Travel

Udaipur is located around azure water lakes and is hemmed in by lush green Aravalli Range, which means you can visit quiet and mesmerizing places such as City Palace, Monsoon Palace and Fatehsagar Lake. Perfect for a weekend getaway to rejuvenate yourself.
