Online Education

1. Does all programs/courses were completed on time.	Yes
--	-----

2. Measures taken to complete the syllabus of courses and programs.	<p>Education at SPSU during the Covid-19 pandemic During the active lockdown period, the students were asked to vacate the hostels and asked to be in their respective homes. In order to communicate with the students and their parents, separate class-wise WhatsApp groups were prepared. The faculty mentors associated with the groups had regular discussion with the students. To impart online education the university took the following decisions:</p> <ul style="list-style-type: none"> •Since the university was going to conduct online classes, the students were asked to be well equipped with the proper bandwidth for the online conduction of classes. •To manage the online education at the university, the university purchased a licensed version of MS-TEAMS software for online interaction and live conduction of classes. Through this software, the faculty and students could communicate and learn in active mode. Initially, the duration of each lecture was kept in between 20-30 minutes to make the students adapt to the new environment. The video content of these lectures was made available online to all the students on MS-TEAMS software. •Secondly the power point presentations or the other forms of study material was kept on the open-source MOODLE-Genomio software. The video lectures from NPTEL and other sources like YouTube channels were kept on the individual MOODLE pages of the faculty. The individual subject wise assignments and quizzes were uploaded on the Moodle pages internal assessment was prepared. •As a third initiative, the university has purchased iASSESS, an AI based software for the online conduction of exams in the university. The company is charging on per student basis and seems to be very effective in proctoring and maintaining the sanctity of the exams. The students are able to submit the answers on the portal or write the answers on the sheets of paper and submit the same on the portal. The faculty members can asses the answers on their laptops or download and take a printout of the answers as per their convenience. •In order to conduct the assessment for the practical of the previous semesters, the university conducted online quizzing and viva-voce examination. Subsequently, online free simulation tools for the laboratories, virtual Labs were actively used. •In order to boost the morale of the students, regular week-end sessions were conducted by the faculty mentors. The problem-solving sessions are kept on all working Saturdays. •All the official work of the university was suspended as per the Govt of Rajasthan orders. But online active meetings and sessions were conducted as per the requirements on the MS-TEAMS software. Later, upon the relaxation from the Govt of Rajasthan, 50% of the office staff was asked to join on rotation basis (strictly adhering to the distance norms) and the pending office work was completed. •During the covid-19 period, the admission to first year classes was changed from the offline mode to the online mode. Our admission team actively participated in the advertisement and online conduction of entrance exams. The first-year students were counselled/interviewed on online platforms. They were also advised through a series of webinars conducted by the HODs of the different departments. The university is till following the online conduction of the classes and other academic formalities to till date. 		
3. The period of delay in completion of syllabus (in months).	0		
4. The period of delay in conducting exams (in months).	3
